

## KILMACOLM HORTICULTURAL SOCIETY

## Your Beautiful Plants All Year Round

After the success of our fabulous Flower Show when the best of the summer season was on display, the committee thought it would be wonderful to show other seasonal delights grown by members.

The Society would like to invite members to record the beauty of their gardens and houseplants all year round by submitting photographs to our website.

Take a photograph each month of the best example of plant life in your home or garden. Email it to [kilmacolmhorticulturalsociety@gmail.com](mailto:kilmacolmhorticulturalsociety@gmail.com). Photos should be sent actual size – one entry per person per month.

Photographs will be displayed on the website, and one will be chosen each month to create a 2027 calendar.

Money raised from the sale of the calendar will be added to the funds of the Society.

This is a long-term project that will take over a year to come to fruition. Working together we shall create a beautiful record of members' horticultural triumph.
